

Example of Arena with two StockGuard tape runs

## SAMPLE COSTS FOR AN ARENA

Approximate costs for an arena 80m x 40m with 2 tape runs and one gateway.

Assume wooden posts (not supplied) spaced 5m apart.

Item	Code	Quantity
250m White Tape 4cm	H4	2
Corner Insulator (and two coach screws)	F45V	4
Tensioner buckle (start and end points)	F36V	6
White line insulator (and two wood screws)	F8WH	86
<b>Total payable for arena (approx. 80m x 40m) (plus freight to be determined)*</b>		<b>\$589.45</b>
<b>Equates to \$1.22 per metre per tape run*</b>		

*Optional extra – if you prefer to run your tape on the inside of the arena  
add some white peg screws (FVB) to ensure everything sits flush*

*NB: This is for a non-electrified arena, should you wish to electrify there are additional fittings required.*
